Yasser Seirawan : Winning Chess Brilliances (Winning Chess - Everyman Chess) before purchasing it in order to gage whether or not it would be worth my time, and all praised Winning Chess Brilliances (Winning Chess - Everyman Chess):

2 of 2 people found the following review helpful. Chess Edutainment for all levels of players. We want VOL. 2!By Harold JYasser annotates chess games with the authority and enthusiasm of a major league sportscaster. Anyone who knows basic chess can enjoy and learn from this book. I think even high level players (I'm not one myself) will find the analysis well done . I hope Yasser Sierawan Everyman Chess Publishing decide to produce WCB Vol. 2 !1 of 1 people found the following review helpful. Five StarsBy KuatelukenGreat, entertaning and informative book by Yazz. Totally recommend!0 of 0 people found the following review helpful. EnjoyableBy Garry WilliamsExcellent!

This book by International Grand Master Yasser Seirawan provides a move-by-move account of the best chess games of the last 25 years, played by the world's foremost chess competitors. With an authoritative voice that is by turns

poetic and analytical, Seirawan serves as host of a fascinating excursion of the most brilliant chess game, providing highlights into and explanations of each and every move. Seirawan begins each game with a description of the historical atmosphere of the chess world --and sometimes the world at large--at the time the game was played. When he delves into the game itself, he starts with the reasoning behind the opening moves. From there he provides both a play-by-play description of the game and an analytical commentary, all the while examining the moves in terms of piece development and possible tactical and strategic opportunities. Along the way, a handful of the players are profiled in biographies. In *Winning Chess Brilliances* readers will get a taste of the most dazzling chess combinations, devious strategies, and downright cruel blows as world champions risk it all! This book is truly a celebration of the sport of chess.

.com Seirawan does more than present 12 of the most brilliant grandmaster games of the past 25 years. His lively move-by-move analysis delves into the minds of many of chess's greatest players, explaining the reasoning (or errors) behind each. Readers with a grasp of chess basics, tactics, and strategies (covered in the first three books of Seirawan's four-book series) will come away with an appreciation of the subtleties of grandmaster play and the inspiration to stretch their skills and understanding to higher levels. Have another chess player nearby when you read it--you'll want to play afterwards.
