Dorothy H. Truscott, Dorothy Hayden Truscott : Winning Declarer Play before purchasing it in order to gage whether or not it would be worth my time, and all praised Winning Declarer Play:

Quite possibly the best declarer book for a beginner-level player. Everything is explained in a simplistic concise manner. Truscott does a superb job of presenting good technique succinctly. This is not an easy task

as many authors spend page after page with verbose technical jargon. Another hard thing to teach through a book is how to problem solve and think about a hand. Truscott I felt succeeds in giving the reader some tools for "solving" a hand as declarer. This is far more useful than just memorizing technique. After reading this book and gaining some experience, try Mollo's Card Play Technique next. 1 of 1 people found the following review helpful. My No Trump Has Improved!! Yea!! By Louise Sullivan Basic bridge at its best presented in a fun and easy to read format, order both of her books together. I learned so much when I read this book that I hadn't learned from my bridge lessons (the book the instructor used) and what I hadn't picked up in my 4 years since of playing bridge. She knows how to explain so that it makes sense on how to play the hand ~ and now it feels so good to be doing it the right way! ~~ Dorothy teaches about card combinations, reading the cards, playing both no trump and suit contracts. And now I know the safety play, end play and squeeze play tooooooo. ~~ This is a book that I need a refresher on periodically, so my copy is well used. 0 of 0 people found the following review helpful. Five Stars By teach Very informative and easy to follow the bridge bids and the play of the hand.
