Fun and Unusual Interpretation of Alice in Wonderland printed on both sides of the page By iiiireader[[VIDEOID:fd86bc1e9f46aaf65ae8271bc16250ad]] I am a big fan of Alice in Wonderland, so I look at all of the various coloring books that have come out with this as their theme and choose my favorites to purchase. Wonderland has a really fun and different take on the illustrations compared to my other books (which are generally much more traditional.) In this book, Alice has an updated and trendy vibe that I find very cute. The artist (Amily Shen) has put her spin on the story. The book is both a coloring book (in chapters) and an activity book. I generally do not do the activities but I know that many people do. There is writing on a number of pages but the print is so small, for me, it doesn't distract me from the designs. The book has 76 pages of coloring and activity (including the front piece and the title page.) The book is broken into 9 chapters and each of the chapter title pages has a decorated china plate for coloring. For my first project, I chose a design that included Alice, a bird and a cupcake (both of which show up in several other designs.) I used my Derwent Coloursoft Pencils with a very light touch. The book has a removable dust cover which is nicely decorated with some glossy touches. The dustcover has been printed for coloring as well. The fold-outs (front and back) are black on green and the inside of the cover (from one end to the other) is black on white. The attached cover of the book also has fun coloring opportunities. These designs are black

printed on a medium peach and the feel is kind of slick to the touch. Here is an overview of what I noted about the physical book: 76 Pages of Modern Alice in Wonderland inspired Designs Printed on both sides of heavyweight, non-perforated white paper Glue Bound Some Designs merge into the binding area Some designs spread across two pages (in my copy, some lined up better than others) Alcohol-based markers bleed through slightly Water-based markers and India ink pens did not bleed through Gel pens did not bleed through but took extra drying time Coloring pencils worked well in my tests and in my first project as well I test my coloring books with various medium. My tests are not exhaustive as I spend about half an hour per book with my tests. The tests do give me an idea of how the different medium react to the paper but not the experience of coloring a full design. If you are interested in knowing which types of product I used in my tests, I will post those in the comments section below. 0 of 0 people found the following review helpful. Great coloring book By K. Fox Purchased as a gift for my daughter who collects Alice in Wonderland memorabilia. She loves the coloring book. Able to purchase for less from that at local retailers. 0 of 0 people found the following review helpful. Cute and Fun book. By Samantha Oswald Different, fun and imaginative. Pages are a little rough but other than that the pages are fun and easy to color.

Follow the White Rabbit into this imaginative adult coloring book inspired by Lewis Carroll's Alice's Adventures in Wonderland, featuring intricate pen-and-ink drawings by acclaimed artist Amily Shen. Meet the Cheshire Cat, attend the Mad Hatter's tea party, and play croquet with the Queen of Hearts in this evocative tale that invites you into a strange and beautiful new world of coloring.

About the Author AMILY SHEN is a renowned Taiwanese artist. She had worked as a custom and shoe designer and is now a full-time illustrator and art instructor. She has published three bestselling drawing books. WONDERLAND is her first adult coloring book. Excerpt. Reprinted by permission. All rights reserved. Do you know Alice's story? Do you draw pictures in your head while reading? Strange conversations with a strange cast . . . has the story been transformed? If you too jumped down the rabbit hole, who would you meet? What colors would you encounter? Take up your colored pencils, and together let's make a book. Read with your colored pencils, and give Alice a new adventure.
