Create compound words, familiar phrases, or metaphors by linking two images on the domino faces. Can others match what you are thinking? Adults will enjoy the challenge and the sure-to-result laughter. The dominoes themselves are high quality with a smooth polished feel and good weight. A nice addition to your board game collection.1 of 1 people found the following review helpful. Not bad, but not greatBy Timothy M DavisNot bad, but not great. A middle of the road game for us. Not a game for longevity, that's for sure. Once you get going, it gets better, but about 50% of our group didn't really like it. Everyone has to be pretty creative, or it can be boring. Would recommend if you have a lot of open minded/ creative people in your group.1 of 1 people found the following review helpful. At the least...By DuaneandyThis was a Christmas gift. Packaging was mush less than I expected. Otherwise, seems okay.

A Must List pick "The old-fashioned game gets a word-nerd twist. Each tile is illustrated with two objects that could signify many words. Your task is to string them together to create a new word or phrase. It may sound like child's play, but trust us, the game can get as adult as its players." -Entertainment WeeklyAbout the AuthorBased in Seattle, Forrest-Pruzan Creative is the invention studio behind dozens of award-winning games, including Cranium Hullabaloo,
