A very unique logic bookBy CustomerThis workbook is very uniqueit is written by kids just like him! Yep, each and every problem was written by a child between the ages 8-16. The challenges were originally submitted to Prufrock Press Creative Kids Magazine, a magazine written by kids for kids and then specially selected for this workbook.If your child is interested in submitting a logic puzzle to the magazine, they accept all varieties, including cartoons, songs, stories, puzzles, photographs, artwork, games, editorials, poetry, and plays.

On January 1st, a girl said to a boy, "Two days ago, I was 7, but next year I'll be 10." She was telling the truth. Try to figure out how this could be possible.
