To my amazement, you can actually judge this book by it's cover.Every single puzzle has an artistic picture in complexity and interesting like the one on the front.Very happy with this book.Puzzles are solvable for all skill levels, yet challenging enough for experienced "pixelmaniacs".After wasting money on about six other books, only one was worth the money. In the future, I will buy only books from this publisher.0 of 0 people found the following review helpful. Very large, indeed, many 2 page puzzles. Wore out my marker within a couple of them! I've already bought another of the LOGI books too
