21 of 21 people found the following review helpful. not very good. By A Customer This book is supposed to be a master duelist's guide, but it's not very useful. For effect monsters, it usually doesn't bother listing the effect, and the pictures are too small to read the card print. If I don't have a card, and I'm unfamiliar with it, not telling me what it does or providing me with a well defined picture of the card isn't very helpful. It's got lots of typo errors, and in some instances, the wrong pictures listed for the cards. Not well proofed, and not very helpful.
